

PHOTOSHOP BASICS: “Paste-Into” a selected area

Directions:

Create an image like the one below, using the paste-into function. Please follow along with the video tutorials to help you create and upload it.

Video Tutorials:

I created these videos with step-by-step instructions. You may watch the videos and open Photoshop to complete the tasks along with me.

The second video gives instruction as to how to save your file and upload it to Padlet.

Please raise your hand if you need assistance.

Paste-Into Tutorial	Fill in the Polaroid pictures using the “paste-into” function.
Saving and Uploading	Save your file and upload it to Padlet

Turning in Your File:

Please upload the .JPG file to Padlet. Our class “page” is located here:
