

## PHOTOSHOP BASICS: Black & White with Feathering Technique, working with layers

### Directions:

Create the two images below, using the black and white technique and the feathering technique. Please follow along with the video tutorials to help you create them.

**Black and White**

**Feathering**

### Video Tutorials:

If you have Photoshop experience, feel free to skip the tutorial.

I did create these videos as step-by-step instructions. You may watch the videos and open Photoshop to complete the tasks along with me.

Please raise your hand if you need assistance.

<a href="#">Black and White</a>	Selecting a portion of the image to make it black and white.
<a href="#">Feathering</a>	Using a mask to feather (soften) and image.

### Turning in Your Files:

Please upload one file, once you've completed both tasks.
